Englefield Freestanding Baths

BPIR Declaration

Version: A (12/23)

Designated building product: Class 1

Declaration

Kohler New Zealand Limited has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	Englefield Freestanding Baths
Identifier	Studio II / Sierra / Valencia II / Tuscano / Milano

Description

Freestanding baths intended for personal bathing in residential & commercial applications.

The Studio II / Sierra / Valencia II / Tuscano freestanding baths are manufactured in vacuum formed white Sanitary Grade Acrylic, fully reinforced with fibreglass & a fully encapsulated particle board base. Sanitary Grade Acrylic features a high gloss surface for ease of cleaning.

The Milano freestanding bath is manufactured in a mineral-filled polyester resin composite with a gloss finish.

Rectangular sizes: 1500x750, 1700x750, 1700x800, 1800x900

Oval sizes: 1500x750, 1700x800

All sizes are nominal & specific availability varies according to the chosen range (identifier).

Scope of use

For interior installations in residential & commercial buildings.

Valencia II freestanding baths must be installed to one wall. Sierra freestanding bath can be installed to two (corner) or three (alcove) walls, or fully freestanding. An optional aluminium upstand is available for one side for the Valencia II freestanding bath, & for two or three sides for the Sierra freestanding baths. Milano & Tuscano freestanding baths must be installed away from adjacent walls.

Englefield Freestanding Baths cannot be installed as shower-over-baths (please refer to our specific shower-over-bath products for this purpose).

Waste / drain holes are located centrally & are compatible with standard DN40 waste outlets. These baths do not have an integrated overflow. Consider other options in overall bathroom design to contribute to E3 Internal moisture compliance.

Hot water must be supplied to this sanitary fixture via adjacent tapware.

Conditions of use

The bath must be installed in accordance with our supplied instructions & the relevant requirements of AS/NZS 3500. Ensure that the floor is constructed to support the weight of the bath, full water capacity & the user(s).

The tapware & waste must be installed by a Registered Plumber. The maximum temperature of water at the bath outlet is 50 degrees Celsius.

Relevant building code clauses

B2 Durability — B2.3.1 (c)

F2 Hazardous building materials — F2.3.1

G1 Personal Hygiene — G1.3.2

G12 Water Supplies — G12.3.2

Contributions to compliance

B2.3.1(c): Per B2/AS1, Durability Requirements of Nominated Building Elements for Plumbing Fixtures, the Englefield Freestanding Baths have a durability of at least 5 years, when installed and maintained in accordance with our supplied instructions. Englefield Freestanding Baths are designed & manufactured to AS/NZS 2023: 1995 (Baths for ablutionary purposes).

E3/AS1 3.2.2: Where Englefield Freestanding Baths abut impervious wall linings (refer Scope of Use), the joint between fixture and lining shall be sealed to prevent water penetration to concealed spaces or behind linings. To facilitate ease of sealing in these cases, an optional 40mm high continuous aluminium upstand is available for one side for the Valencia II freestanding bath, & for two or three sides for the Sierra freestanding baths.

F2.3.1: No materials used in the construction of Englefield Freestanding Baths give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

- G1.3.2:** The Sanitary Grade Acrylic & mineral-filled polyester resin composite used feature a gloss surface for ease of cleaning.
- G1/AS1 2.6.1:** Englefield Freestanding Baths are designed & manufactured to AS/NZS 2023: 1995 (Baths for ablutionary purposes).
- G12.3.5:** Englefield Acrylic Freestanding Baths must be provided with hot water to satisfy the intended usage of personal bathing (note - tapware not included).
