

Features up close

With the Valencia Elite showering range, we've thought about every detail so you don't have to. Incorporating unique design features, Valencia Elite enclosures combine design innovation with high quality, precision engineering to provide a truly compelling user experience.

A. HEIGHT

A generous 2 metres, including tray.

B. FRAME

Available in metallic, white and satin silver finish. Black available in 1000 x 1000 and 900 x 900mm square corner and alcove pivot doors.

C. DOORS

Corner showers have a semi frameless return panel. Pivot Doors are reversible.

D. MAGNETIC CLOSE

All doors have a solid clear magnetic door close.

E. HANDLES

Quality 2-sided modern D handle for ease of opening, from inside and out.

F. EDGING

Colour-matched edge capping covers edge of acrylic where frame meets wall.

G. PEACE OF MIND

The Valencia Elite range comes with 6mm toughened safety glass which meet all NZ safety standards (as with all Englefield showers, this certification is displayed on the glass) and a 10 year Englefield guarantee, ensuring complete peace of mind.

H. QUICK RELEASE SLIDING DOORS

Quick release rollers at the bottom of the enclosure make it easier to clean those hard to reach places preventing grime build-up and, ultimately, keeping the door movement smooth.

I. QUALITY DOUBLE ROLLERS

High performance sealed double rollers are guaranteed to provide high quality operation and feel throughout the lifetime of the product. They have been engineered for a truly smooth movement – no wobble.

J. BEST IN CLASS AESTHETICS

Valencia elite has been developed to the highest possible quality standards to ensure a stylish and contemporary look and feel.

CleanLess® interior glass treatment protects so diminishes marking and streaking and makes it easy to clean, keeping your shower looking as good as the day you bought it.

EASY INSTALLATION

The Valencia Elite is easy to install and maintain, and provides versatile options to choose from, so a perfect choice for any contemporary bathroom space. For smooth installation, there is 25mm adjustment per retainer to ensure a seamless enclosure fitting, even with uneven walls.
